SKILLS

- Python
- Django
- HTML coding
- CSS
- Advanced critical thinking
- Business planning
- Programming and design skills
- Process development
- API design
- VUE.JS

PROFESSIONAL SUMMARY

Expert software development professional with proven skills in python programming, project planning, coding, and testing. Brings five(5) years of experience in building robust, well-performing applications matching specifications and exceeding expectations. Seeks out opportunities to expand skills and improve designs.

WORK HISTORY

Backend Developer 05/2017 - Current
Odudu Victor - Ilorin, Kwara State .

- Automated tasks and analyzed data with Python programming.
- Established testing framework with Selenium to eliminate bugs and create quality code.
- Boosted website performance and stability through planned maintenance and targeted troubleshooting.
- Delivered front- and back-end development across mobile and web applications.
- Designed web pages to enhance branding and navigation.
- Enhanced front-end performance through image optimization and clean coding practices, accelerating load times.
- Demonstrated expert coding knowledge, including JavaScript, SQL, and Python.
- Performed thorough testing and analysis to eliminate error and risk.
- Maintained excellent knowledge of emerging multimedia technologies and trends to meet client demand.
- Improved website navigation with clear and intuitive UX mapping.
- Automated tasks and analyzing data with Python programming.

Software Developer 06/2015 - 05/2016
olutech - Ilorin, Kwara

- Collaborated with other developers to identify and alleviate software bugs.
- Increased user experience scores by practicing innovative forward-thinking, overcoming challenges creatively.
- Applied robust programming design concepts to back and front-end systems.
- Provided detailed progress reports and milestone updates to key stakeholders, maintaining project momentum.
- Deployed new front-end features, capturing higher performance metrics than previous averages.
- Led team of 5 developers to analyze and rebuild software from ground up through to completion.
- Trained and managed 11 developers, using team strengths to resolve issues efficiently.
- Improved code quality through automated testing, reviewing and validation.
- Increased code efficiency through rigorous root-cause analysis and investigation.
- Designed and built scalable APIs to increase development workflow by 95%.

EDUCATION

Bachelor of Science: COMPUTER SCIENCE, 10/2018
KWARA STATE UNIVERSITY - Ilorin

A-Levels: statistics, 10/2016

NATIONAL YOUTH SERVICE CORPS - Benin

- Awarded BEST student

Higher National Diploma: STATISTICS, 08/2015

KWARA STATE POLYTECHNIC - Ilorin
